

Jillian Reilly

Welcome message

I became a teacher to have a positive influence on students, especially those who struggle in school or have learning styles that are different than those typically addressed in a classroom. I was a student who didn't reach their full potential in high school because I lacked interest. Once I went to college, I was a different student because I was interested in what I was learning about. My goal as a teacher is to guide students to what interests them in order to have a positive impact on their future.

Professional Experience

2004-present	Cambridge Central School	Cambridge, New York
Special Education Teacher
