PUBLIC INFORMATION PROGRAM

The Board of Education shall maintain a continuing public information program, in order to promote widespread understanding of the school program, and to gain the support and participation of the community in the school system.

In addition to encouraging members of the community to attend and participate at public Board meetings, the Superintendent of Schools shall develop a program aimed at disseminating Board policies and district educational programs to the public.

The Superintendent should coordinate the activities of administrators to ensure their direct involvement in the public information program. Each school, through its faculty and staff, should participate not only with the dissemination of information to the public, but also with the planning of events and social programs aimed at getting the community involved in school district activities.

Impartial and informative school-sponsored printed materials may be sent home with students. All other printed materials may be distributed in this manner only with permission of the Principal.

Parents and citizens wishing to obtain information should inquire first through the Principal or a school administrator, then through the Superintendent, and finally through the Board.

Board members and staff may be authorized to discuss school matters with community groups or to make official statements in the name of the school district.
