Thanks to the CCS community, our gymnasiums have undergone a major renovation. The manufacturers and installers have helped us come up with the following list of guidelines to keep this new space properly maintained.

1. Due to the expansion joints in the floor, there will be no food or drink allowed into the gym. Teams playing in a contest will be allowed to take drinks to the bench area, but keep them in the bin provided.
2. No street shoes will be allowed on the main court, sneakers only.
3. Please do not attempt to open or close the bleachers. There is a procedure to be followed and the designated school personnel will assist if needed. Make sure to include what bleachers you will need in your request under equipment needed.
4. Since the bleachers, while in a closed position can not withstand any substantial weight, please do not sit on the bleachers when they are in this position. This will damage the structure.
5. We have been given very specific instructions on the care and cleaning of the floor. Feel free to use the dry mops that are in the gyms to sweep or the small square sweeper in case of moisture. Do not use any chemicals on the floor.
6. Do not put tape on the floor. The residue will stick and when the tape is removed, the finish comes off with it.
7. No hard balls designated for outside play (baseballs, softballs, lacrosse balls and golf balls) will be allowed in the gym. We don’t want broken bleachers, dented doors or broken windows.
8. The score table and team chairs were donated to the school by the Booster Club and are greatly appreciated. If needed, please make sure to request them in your Use of Facility form and they will be set up for you by our school personnel.
9. The backboards and batting cage are operated by using the keypad and should never be used by anyone other than designated school personnel.
10. All participants should only be in the facility requested and not other parts of the building.

FAILURE TO FOLLOW THESE GUIDELINES WILL JEOPARDIZE THE USE OF THIS FACILITY!
